

Ravidu Gunawardhana

COMPUTER SCIENCE - UNDERGRADUATE

Colombo, Sri Lanka | +94-716-254-809 | ravidugunawardhana2002@gmail.com | [Personal Portfolio](#) | [Linkedin](#)

Profile

Computer Science undergraduate with a strong interest in IT support and system operations. Skilled in troubleshooting, software applications, and problem-solving through academic and project experience. Familiar with computer hardware and Microsoft Office tools. A fast learner with a positive attitude, strong communication skills, and eagerness to grow in a professional IT environment.

Technical Skills

Programming Languages : Dart, Python, JavaScript, C#, Java

Frameworks & Technologies : Flutter, Firebase, REST APIs

Web Development : HTML, CSS, JavaScript, React

Databases : MySQL, Firebase Firestore

Software & Tools : Microsoft Office (Word, Excel, PowerPoint), VS Code, Git, GitHub, Figma

Projects

DriveMate – Smart Driver Assistance Mobile Application

Technologies: Flutter, Dart, Firebase, Google Maps API

- Developing an Android mobile application that assists drivers in locating nearby garages, fuel stations, EV charging stations, and home mechanics using real-time location services.
- Integrated Google Maps API to display nearby services and provide location-based navigation features.
- Implementing an SOS emergency request system that allows drivers to request roadside assistance during vehicle breakdowns.
- Designed and developed the mobile interface using Flutter and integrated Firebase Authentication and Firestore for secure user management and real-time data handling.

CashPilot – AI Powered Expense Tracker Mobile Application

Technologies: Flutter, Dart, Firebase, Gemini API

- Developed a smart mobile application that automatically detects and categorizes financial transactions using SMS parsing.
- Designed the mobile user interface using Figma and implemented the frontend using Flutter.
- Integrated Firebase Firestore to store transaction data and synchronize user budgets in real time.
- Implemented dashboards and spending alerts to help users monitor and manage their financial activities.

IoT-Based Real-Time Lake Monitoring System *(Group Project)*

Technologies: ESP32, Python, Firebase, IoT Sensors

- Developed an IoT-based system to monitor lake water quality parameters including pH, turbidity, TDS, and temperature.
- Integrated environmental sensors with ESP32 microcontroller for real-time data collection.
- Wrote Python scripts to analyze environmental sensor data and visualize trends.
- Uploaded real-time monitoring data to a web platform using Firebase for live observation.

ResQCore – Emergency Service Web Application

Technologies: React (Vite), Tailwind CSS, RTK Query, WebSockets

- Contributed to the frontend development of a full-stack emergency response platform that enables community users to submit and track emergency requests in real time.
- Developed the user authentication interface including login functionality using React and modern UI design practices.
- Designed and implemented the dashboard interface to display emergency request information and system status for users
- Built the View Requests page allowing users to monitor the progress and status updates of submitted emergency requests.

Education

University of Plymouth, BSc(Hons) Computer Science	(2023 - Present)
ICBT Campus, Diploma in Information & Communication Technology	(2023 April - 2023 October)
Thurstan Collage - Colombo 07, G.C.E Advanced Level Examination	(2018 –2022(2023))
Asoka Vidyalaya - Colombo 10, G.C.E Ordinary Level Examination	(2012 –2018)

Certification

- “Python for Beginners” by Department of computer Science & Engineering Faculty of Engineering, University of Moratuwa
- “Learning Python” by Joe martin in LinkedIn Learning
- “Web Design for Beginners” by Department of computer Science & Engineering Faculty of Engineering, University of Moratuwa
- Following “Flutter Essential Training: Build for Multiple Platforms” by Pooja Bhaumik in LinkedIn Learning
- Following “Full-stack Product Development (Web + Mobile) Bootcamp ” Course by Stem Link

Activities & Leadership

- **Director - Event & Logistics** - Association of Computer and Data Science NSBM Green University
- **Coordinating Department Vice President** of “Harithawarjana’25” organized by Students’ Wellbeing Association
- **Program & Question Team Member** of “MathMaster’25” organized by Mathematics and Statistic Circle
- **Program & Marketing Team Member** of “Nexora 1.0” Organized by Association of Computer and Data Science

Achievements

- Finalist - SLIoT Challenge 2026 (Ongoing) Organized by University of Moratuwa
- 2 Runners Up - AeroXplore RC Plane Competition 2025 Organized by University of Ruhuna
- Finalist - GreenExe 2025 organized by NSBM Green University
